

Liskeard Child Development Centre
Sunshine Room

54. Critical Incident

At The Liskeard Child Development Centre we understand we need to plan for all eventualities to ensure the health, safety and welfare of all the children we care for. With this in mind we have a critical incident policy in place to ensure our CDC is able to operate effectively in the case of a critical incident. These include:

- Flood.
- Fire.
- Burglary.
- Abduction or threatened abduction of a child.
- Bomb threat/terrorism attack.
- Any other incident that may affect the care of the children in the CDC.

If any of these incidents impact on the ability for the CDC to operate, we will contact parents via phone.

Flood

There is always a danger of flooding from adverse weather conditions or through the water/central heating systems. We cannot anticipate adverse weather; however we can ensure that we take care of all our water and heating systems through regular maintenance and checks to reduce the option of flooding in this way. Our central heating systems are checked and serviced annually by a registered gas engineer and they conform to all appropriate guidelines and legislation.

If flooding occurs during the CDC day, the CDC Teacher in Charge will make a decision based on the severity and location of this flooding, and it may be deemed necessary to follow the fire evacuation procedure. In this instance children will be kept safe and parents will be notified in the same way as the fire procedure.

Should the CDC be assessed as unsafe through flooding, fire or any other incident we will follow our operational plan and close the provision until it is safe to re open.

Fire

Please refer to the fire safety policy.

Burglary

The management of the CDC and the school follow a lock up procedure which ensures all doors and windows are closed and locked before vacating the premises. Alarm systems are used and in operation during all hours the CDC is closed.

The cleaner or main office manager will always check the premises as they arrive in the morning. Should they discover that the CDC has been broken into they will follow the procedure below:

- Dial 9999 with as many details as possible, i.e. name and location, details of what you have found and emphasise this is a CDC and children will be arriving soon.
- Contain the area to ensure no-one enters until the police arrive. The staff will direct parents and children to a separate area as they arrive. If all areas have been disturbed staff will follow police advice, including following the relocation procedure under flood wherever necessary to ensure the safety of the children.
- The Teacher in Charge will help the police with the enquiries, e.g. by identifying items missing, areas of entry etc.
- The Teacher in Charge will be available at all times during this time to speak to parents, reassure children and direct enquires.
- Management will assess the situation following a theft and ensure parents are kept up-to-date with developments relating to the operation of the CDC.

Abduction or threatened abduction of a child

At the Liskeard CDC we take the safety and welfare of the children in our care extremely seriously. As such we have secure safety procedures in place to ensure children are safe whilst within our care, this includes safety from abduction. Staff must be vigilant at all times and report any persons lingering on CDC property immediately. All doors and gates to the CDC are locked and unable to be accessed

unless staff members allow individuals in. Parents are reminded on a regular basis not to allow anyone into the building whether they are known to them or not. Visitors and general security are covered in more detail in the supervision of visitor's policy.

Children will only be released into the care of a designated adult, see the arrivals and departures policy for more details. Parents are requested to inform the CDC of any potential custody battles or family concerns as soon as they arise so the CDC is able to support the child. The CDC will not take sides in relation to any custody battle and will remain neutral for the child. If an absent parent arrives to collect their child, the CDC will not restrict access **unless** a court order is in place. Parents are requested to issue the CDC with a copy of these documents should they be in place. We will consult our solicitors with regards to any concerns over custody and relay any information back to the parties involved.

If a member of staff witnesses an actual or potential abduction from CDC the following procedure will be followed:

- The police must be called immediately.
- The staff member will notify management immediately and the Teacher in Charge will take control.
- The parent(s) will be contacted.
- All other children will be kept safe and secure and calmed down where necessary.
- The police will be given as many details as possible including details of the child, description of the abductor, car registration number if used, time and direction of travel if seen and any family situations that may impact on this abduction.

Bomb threat/terrorism attack

If a bomb threat is received at the CDC, the person taking the call will record all details given over the phone as soon as possible and raise the alarm as soon as the phone call is terminated. The management will follow the fire evacuation procedure to ensure the safety of all on the premises and will provide as much detail to the emergency services as possible.

Other incidents

All incidents will be managed by the Teacher in Charge and all staff will co-operate with any emergency services on the scene. Any other incident that requires evacuation will follow the fire plan. Other incidents will be dealt with on an individual basis taking into account the effect on the safety, health and welfare of the children and staff in the CDC.
